

BASIC TOUR

The budget option for a tour of ESA ESTEC with small and large groups

WHAT

A tour that introduces the world of ESA ESTEC. A short overview presentation and a walking tour with various space topics. Basic means no extra's such as catering, speaker, lab, facility, etc. Groups: 12-100 p. Duration: 2-3 hours.

FOR

Any group (education, business, conference, etc.) wanting a general introduction to ESA's technical centre in a relatively short tour with no need for customisation.

PROGRAMME

A standard introduction to ESA ESTEC with an ESA Overview presentation, tour of exhibition area about zero-g research, ESA's space lab Columbus, Mars Lab, ExoMars rover and a visit to the materials laboratory corridor with vitrines about 3D printing for space, printing a Moon base and ESA's reusable space plane.
