

## ***COLLEGE TOUR***

*Commercial tour for groups that don't qualify as an ESA member state university*

### ***WHAT***

A tour of ESA ESTEC which can be a general introduction to show the highlights of what we do at the space agency. Normally we follow a standard programme but in rare cases an extra facility can be visited depending on various factors.

### ***FOR***

College or exchange students and other educational groups that don't qualify as an ESA member state university but still want to visit a real space environment.

### ***PROGRAMME***

ESA overview presentation, 360 panoramic tour of the satellite test facilities, tour of the exhibition area about zero-g research, space station, Columbus space lab, Mars Lab, ExoMars rover, research into 3D printing for space, ESA's space plane. Topics and exact programme depends on request and background of the group.
